

AgileSwitch Intelligent Gate Drivers for IGBTs & SiC Hybrids

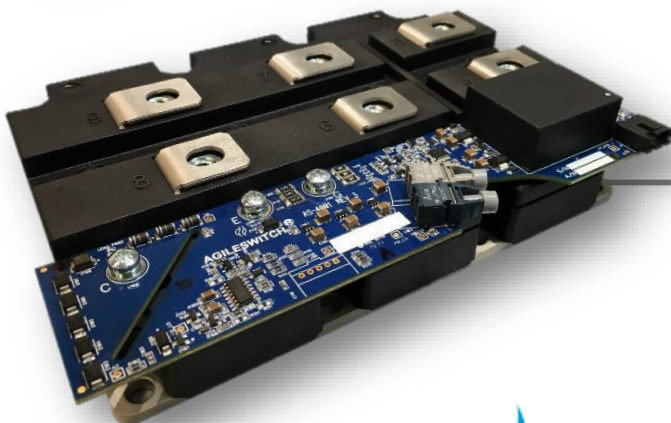

EDEM2 - EconoDual™ Electrical Master 2

- 11 Software Programmable Parameters
- Suitable for IGBTs & SiC Hybrids up to 1200V
- Up to 50kHz switching
- Up to 7 fault conditions
- Isolated High Voltage & Temperature Monitoring
- 2 X 2W Output Power
- Master-Slave (-Slave) Capability

PPEM - PrimePACK™ Electrical Master

- Suitable for IGBTs & SiC Hybrids up to 1700V
- Up to 15kHz switching
- Up to 7 fault conditions
- Isolated High Voltage & Temperature Monitoring
- 2 X 5W Output Power
- Master-Slave (-Slave) Capability
- Dual Channel Fiber option

HPFM – High Power Fiber Master

- Suitable for IGBTs up to 3300V
- Up to 15kHz switching
- 1 X 7W Output Power
- Master-Slave Capability
- Fault Reporting via the Fiber I/O

RoHS
Compliant
